

ALEXANDER MFONISO

Frontend Engineer

09135621172 | alexandermfoniso18@gmail.com | <https://alexander-mfoniso.vercel.app>

PROFESSIONAL SUMMARY

Frontend Engineer with professional experience building scalable web and mobile applications using React, React Native, TypeScript, and modern frontend technologies. Currently at E-Byte Africa, developing production-ready solutions across education, business, and SaaS platforms. Passionate about crafting intuitive user experiences, building developer tools, and delivering performant applications with clean, maintainable code. A fast learner with strong ownership, problem-solving skills, and a commitment to continuous improvement.

PROFESSIONAL EXPERIENCE

Frontend Engineer

E-Byte Africa | Jan 2026 – Present

- Develop and maintain production web and mobile applications using React, React Native, Expo, and modern frontend technologies.
 - Translate Figma designs into responsive, reusable, and accessible user interfaces.
 - Integrate frontend applications with REST APIs while collaborating closely with backend engineers.
 - Build scalable component architectures and optimise application performance across multiple products.
 - Contribute to testing, debugging, and deployment workflows while maintaining high code quality.
 - Work cross-functionally with designers, product managers, and backend developers to deliver production-ready solutions.
-

SELECTED PROJECTS

Alex Stories

A modern story publishing platform

- Built a full-featured publishing platform with authentication, rich-text editing, likes, comments, bookmarks, notifications, and author profiles.
 - Technologies: React, Firebase, Cloudinary, TipTap, Tailwind CSS.
-

Gemini Coder

AI-powered VS Code Extension

- Developed an autonomous programming assistant for VS Code featuring workspace-aware AI chat, direct file editing, multimodal image support, inline code completions, and undo functionality.
 - Technologies: TypeScript, VS Code Extension API, Gemini API, Webpack.
-

XAUUSD Trading Bot

- Built an algorithmic trading and backtesting system integrating MetaTrader 5 with market-structure analysis, multiple trading strategies, walk-forward testing, and automated risk management.
 - Technologies: Python, Pandas, MetaTrader 5.
-

Vite Forge CLI

- Created an open-source CLI that scaffolds production-ready React, Vite, and Tailwind applications with configurable templates, reducing project setup time for developers.
 - Engineered project generation, template automation, and package publishing using Node.js.
-

Location-Based Services

- Implemented advanced mapping and geofencing functionality with real-time location tracking, restricted access control, and multi-screen state management.
 - Technologies: React Native, Expo, Mapbox.
-

TECHNICAL SKILLS

Frontend

- **React**
- **React Native**
- **TypeScript**
- **JavaScript (ES6+)**
- **HTML5**
- **CSS3**
- **Tailwind CSS**
- **Expo**

Backend

- **Node.js**
- **Express.js**
- **Firebase**
- **MongoDB**
- **PostgreSQL**
- **Python**
- **Java**
- **Spring Boot**

Tools & Platforms

- **Git**
- **GitHub**
- **Docker**
- **Playwright**
- **Cloudinary**
- **Vercel**
- **Render**
- **Figma**

EDUCATION

Diploma in Software Engineering
NIIT | 2023 – 2025

Senior Secondary Education
The Legend College | 2017 – 2022
